The Jersey Financial Services Commission is responsible for supervising Ashburton (Jersey) Limited, in relation to this Key Information Document. The PRIIP is authorized in Jersey and regulated by the Jersey Financial Services Commission. This product is managed by Ashburton (Jersey) Limited, which is authorized in Jersey and supervised by the Jersey Financial Services Commission.

What is this product?

Type This product is qualified as a Packaged Retail Investment and Insurance Product ("PRIIP") and is a class of shares of the Sub-Fund Sterling Asset Management Fund (the "Sub-Fund") in the Fund Ashburton Replica Portfolio Limited (the "Fund").

The Fund is a non-UCITS fund and is an open-ended investment company based in Jersey.

The Fund is a company which is registered with limited liability in Jersey in accordance with the provisions of the Companies (Jersey) Law 1991.

Product objectives The stated investment objective of each Asset Management Fund is to achieve an increase in the value of the Fund, whilst aiming to suppress volatility and risk, through a conservative allocation of assets between, primarily, international equities, fixed interest securities, cash or money market instruments and other investments.

Investment policy Diversification is the fundamental means of risk control and the following guidelines are applied to the Asset Management Funds:

- Exposure to equities limited to a maximum of 70%
- Exposure to fixed income securities limited to a maximum of 80%, not including money market Instruments

The Asset Management Funds will invest directly into equity holdings, although they may invest via other collective investment funds, such as Ashburton's own in-house specialist funds, to the extent permissible by the regulators in both the home and relevant foreign market jurisdictions, in order to achieve the required exposure to the international equity markets.

Fixed income instruments within the Asset Management Funds will be held directly or through a collective investment scheme within the applicable limits as detailed in this Prospectus.

Redemption policy The instructions for the purchase and redemption/repurchase of Shares may be placed at any time up to 10.00 am ("Valuation Point") on any Dealing Day.

Applications for the purchase or redemption of Shares received after 10.00 am will be held over until the next Dealing Day and on acceptance by the Manager will be dealt with at prices ruling on that day.

Transactions will be effected at the price calculated at the next Valuation Point following the time an application or a redemption request is accepted by the Manager (or if no price is available at that time, due to suspension or revaluation, at the next available price).

All communications regarding the purchase or redemption of Shares must be made to the Manager or its appointed agent.

Distribution policy Dividends will be declared at the end of June and December and will be paid on or around the 15th of July and January for any of the Fund's participating redeemable preference shares in issue.

Intended retail investor The product is suitable for medium to long term investment and for investors wanting to gain exposure to international equities, bonds, cash and money markets.

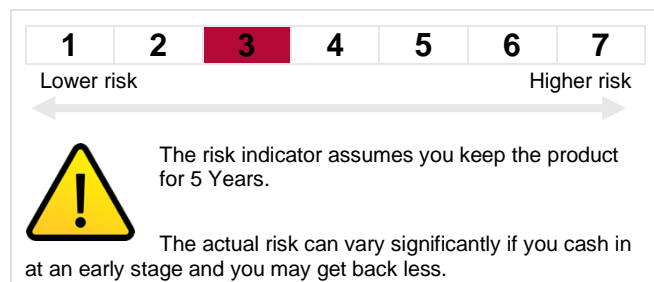

Term The Sub-Fund was incorporated for an undefined period. The manufacturer may terminate this product unilaterally under the conditions set forth in the prospectus of the Fund.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period Example Investment Scenarios	5 years GBP 10 000	If you exit after 1 Year		If you exit after 5 Years	
		What you might get back after costs	Average return each year	What you might get back after costs	Average return each year
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.				
Stress	What you might get back after costs	6 134.4 GBP		6 086.2 GBP	
	Average return each year	-38.66%		-9.45%	
Unfavourable	What you might get back after costs	7 932.4 GBP		7 932.4 GBP

Favourable	What you might get back after costs	11 020.5 GBP		11 426.9 GBP	
	Average return each year	10.21%		2.70%	

Unfavourable scenario: This type of scenario occurred for an investment between 12/2021 - 12/2022.

Moderate scenario: This type of scenario occurred for an investment between 12/2014 - 12/2019.

Favourable scenario: This type of scenario occurred for an investment between 11/2016 - 11/2021.

What happens if Ashburton (Jersey) Limited is unable to pay out?

You may face a financial loss (equal to some or all of your investments) due to the default of the Fund. Such a potential loss is not covered by any investor compensation or guarantee scheme. Should Ashburton (Jersey) Limited default, there should be no impact on the Fund as the Fund's assets are held separately from Ashburton (Jersey) Limited's assets.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10 000 is invested.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The Sub-Fund invests primarily in equities, bonds, cash and money market instruments and may also invest some of its assets via other collective investment funds. This product is therefore subject to inherent market risks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Investment GBP 10 000		
Scenarios	If you exit after 1 Year	If you exit after 5 Years
Total Costs	741 GBP	2 001 GBP
Annual Cost impact (*)	7.4%	3.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 4.35% before costs and 0.73% after costs.

How long should I hold it and can I take my money out early?

Recommended holding period: 5 Years

The Fund should be viewed as a medium to long-term investment (at least 5 years). You can, however, redeem your investment at any time by sending a redemption request to Ashburton (Jersey) Limited before 10.00 am, on any Business Day in Jersey, to be dealt on that Dealing Day.

It is, however, difficult to estimate how much you would get back if you cash in your investment before the end of the recommended holding period (at least 5 years).

How can I complain?

You can lodge a complaint about the Fund or about Ashburton (Jersey) Limited by:
