## What is this product?

### Type

This is an investment fund established as a Company With Variable Capital (SICAV).

### Objectives

**Investment objective** The objective of the Global Balanced Fund is to provide investors with growth in total return (capital plus income) over the medium to long term, without exceeding a maximum equity exposure of 70%.

**Investment policies** The Sub-Fund will invest, either directly or indirectly, in a range of asset classes including equities, fixed income securities, Money Market Instruments, deposits, derivatives and warrants. The Sub-Fund may invest in directly held transferable securities. The Sub-Fund may also invest in collective investment schemes. The Sub-Fund will invest in equity, such as common stocks, preferred stocks, and other securities with equity characteristics, comprising warrants and units of eligible closed-ended Real Estate Investment Trusts (REITs), either directly or indirectly through financial derivative instruments. The Sub-Fund shall not invest more than 10% of its net assets in special purpose acquisition companies (SPACs).

The Sub-Fund will seek exposure, either directly or indirectly, to equity securities for an amount representing at least 20% and maximum 70% of its assets.

Currency forwards may be used for Efficient Portfolio Management to reduce long equity backed exposure and hedge the Sub-Fund back to its reference currency of USD.

The Sub-Fund may hold ancillary liquid assets (i.e., bank deposits at sight, such as cash held in current accounts with a bank accessible at any time) up to 20% of its net assets for treasury purposes. On a temporary basis and if justified by exceptionally unfavorable market conditions, the Sub-Fund may, in order to take measures to mitigate risks relative to such exceptional market conditions in the best interests of the shareholders, hold ancillary liquid assets up to 100% of its net assets.

**Benchmark** The Sub-Fund is not a tracker fund and is actively managed. The Sub-Fund is not managed in reference to a benchmark.

**Redemption and Dealing** You can buy and sell shares in the Sub-Fund on any business day, as described in the prospectus. The price

you pay or receive will be based on Net Asset Value per share on the day the shares are bought or sold.

**Distribution Policy** The Share Class of the Sub-Fund does not pay out income or capital gains on the Fund's investments. Instead, these are reinvested.

**Launch date** The Sub-Fund was launched on 01/10/2014. The share class was launched on 03/10/2014.

**Currency** The base currency of the Sub-Fund is USD.

**Switching** You may exchange shares free of charge to the same or another share class of another sub-fund as the Manager may permit. Please refer to the prospectus for further details.

**Asset segregation** The Sub-Fund is a sub-fund of Ashburton Investments SICAV, which comprises other sub-funds. The assets and liabilities of each sub-fund are segregated from other sub-funds of Ashburton Investments SICAV.

### Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium-low level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

### Term

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the Board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The manufacturer, Ashburton (Jersey) Limited, is not entitled to terminate the product unilaterally.

### Practical information

**Depository** State Street Bank International GmbH, Luxembourg Branch.

**Further information** More detailed information on this Sub-Fund, such as the prospectus as well as the latest annual and semi-annual report, can be obtained free of charge from the management company, the central administrator, or online at [www.ashburtoninvestments.com](http://www.ashburtoninvestments.com). ## What are the risks and what could I get in return?

### Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

### Performance scenarios

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between 31 December 2021 and 28 April 2023.

**Moderate:** this type of scenario occurred for an investment between 30 September 2014 and 30 September 2019.

## What happens if Ashburton (Jersey) Limited is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should we default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

■ 10,000 GBP is invested.

Example Investment 10,000 GBP	if you exit after 1 year	if you exit after 5 years (recommended holding period)
<b>Total Costs</b>	<b>65 GBP</b>	<b>420 GBP</b>
<b>Annual cost impact*</b>	<b>0.7%</b>	<b>0.7%</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.6% before costs and 4.9% after costs.
