## Ashburton Namibia Income Fund

Fund fact sheet as at 30 April 2025

# **ASHBURTON** INVESTMENTS

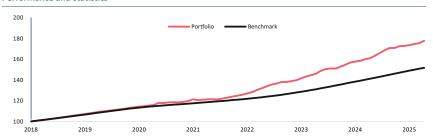

#### Investment objectives and strategy

The Ashburton Namibia Income Fund is an actively managed income fund which is designed to deliver returns that are higher than that of a traditional money market unit trust fund. This fund differs from a money market fund due to the fact that the investment manager is able to invest in income generating instruments with a longer maturity than that of a traditional money market fund. The fund is generally overweight Namibian assets, to comply with the local asset requirement of 45%. The investment objective of the portfolio is to maximise the current level of income within the restrictions set out in the investment policy, whilst providing high stability of capital. Risks include political-, economicand interest rate risks, default risk as well as general market risk which could lead to an increase in bond yields and credit

## Investor profile

This fund is suited for medium-term investors seeking a higher return than money market funds with a high degree of

### Performance and statistics

Performance is calculated net of a portfolio management fee. Varying market conditions, timing of portfolio changes and the level of client discretion may result in some variance between actual and model portfolio performance between actual and model performance between actual and performance between actual and performance between actual and performance between actual ac

Collective Investment Schemes in Securities (unit trusts) are generally medium to long term investments. The value of participatory interests (units) may go down as well as up and past performance is not necessarily a guide to the future. Unit Trust prices are calculated on a net asset value basis, which is the total capital value invested including any income accrual and less any permissible deductions from the portfolio divided by the number of units in issue. Income accruals are made daily and paid out quarterly. Purchase and repurchase requests may be received by the manager by 10h00 each business day. Permissible deductions may include management fees, brokerage, NAMFISA levies, auditor's fees, bank charges, trustee fees and RSC levies. A schedule of fees and charges is available on request from Ashburton Unit Trust Managament Company Ltd (89/485). Commission and incentives may be paid and if so, would be included in the overall costs.
