Ashburton Global Equity Growth Fund (USD) - R Class (Marketing **Communication for Retail Investors)**

Minimum Disclosure Document as at 30 November 2025

Investor profile

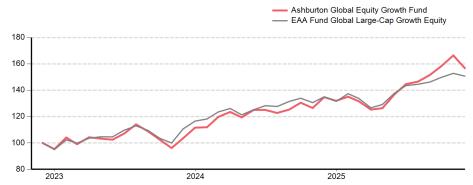

This Fund is designed for investors wishing to participate in global equity markets. The Fund may be most appropriate for investors with a medium to long term investment horizon, as losses may occur due to high market

Investment objectives and strategy

This Fund aims to maximise total return by investing in a global portfolio of equities issued by companies operating in both developed and emerging markets. The Sub Fund will always have at least 80% of its assets invested in equity securities and may also invest in collective investment schemes

Performance and statistics

Past performance is not necessarily an indication of future performance

Source: Morningstar®, Ashburton Investments

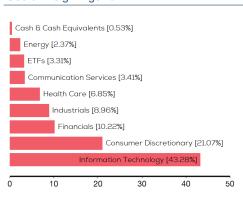

The investment performance is for illustrative purposes only and is calculated on a bid to bid basis and does not take any initial fees into account. Income is reinvested on the ex-dividend date. Actual performance will differ based on the initial fees applicable, the actual investment date and the date of reinvestment of income. Past performance is not necessarily an indication of future performance.

Definitions

Total return:	Total return accounts for two categories of return: income and capital appreciation. Income includes interest paid by fixed income investments, distributions or
TOLAL TELUTTI.	dividende. Conitel enversietien represente the chance in the mortist price of an exact

This is the total value of assets in the portfolio less any liabilities, divided by the number of shares outstanding

This is a measure of the total costs associated with managing and operating an investment fund. These costs consist primarily of management fees and additional TER (total expense ratio):

expenses such as trustee and custody fees, auditor fees and other operational expenses. The total cost of the fund is divided by the fund's total assets to arrive at a

Management fee : A management fee is a charge levied by an investment manager for overseeing an investment fund

A performance fee is a payment made to an investment manager for generating positive returns. This is as opposed to a management fee, which is charged without Performance fee :

regard to returns

In the case of financial markets, an index is a theoretical portfolio of assets representing a particular market or a portion of it. Each index has its own calculation Index: methodology and is usually expressed in terms of a change from a base value. Thus, the percentage change is more important than the actual numeric val

Total costs incurred by the investor in buying and selling the underlying assets of a financial product and is expressed as a percentage of the daily NAV calculated on an annualised basis. These costs include brokerage, VAT, and trading costs.

Annualised cost Is the cost per year of investing in the assets of a financial product

Annualised return: The weighted average compound growth rate over the performance period measured. Tracking error A measure of the amount of risk that is being taken in excess of the benchmark. (TIC) Total investment charges: It is the sum of the Total Expense Ratio (TER) and the Transaction Cost (TC)

Highest & Lowest Return: The highest and lowest rolling twelve-month performance of the portfolio since inception. Sharpe Ratio: The ratio of excess return over the risk-free rate divided by the total volatility of the portfolio.

Sortino Ratio: The ratio of excess return over the risk-free rate divided by the downside deviation of the portfolio. Standard Deviation:

The deviation of the return of the portfolio relative to its average. Drawdown: The greatest peak to trough loss until a new peak is reached.

Information ratio : The information ratio measures the risk-adjusted performance of a portfolio relative to a benchmark
