ASHBURTON

Investor profile

The Ashburton Global Growth Feeder Fund (the "Fund") is designed as a moderate to higher risk strategy for clients who are prepared to take an increased level of risk with their capital.

Investment objectives and strategy

The investment objective of the Fund is to maximise total return (capital plus income) for investors over the long term, without exceeding a maximum equity exposure of 90%. It achieves this through a flexible asset allocation across a diversified range of asset classes, regions and currencies. These include, either directly or indirectly, in equities, fixed income securities, Money Market instruments, deposits, derivatives and warrants.

Performance and statistics

A feeder fund is a portfolio that invests in a single portfolio of a collective investment scheme, which levies its own charges, and which could result in a higher fee structure for the feeder fund. Collective Investment Schemes are generally medium- to long-term investments. The value of participatory interests (units) may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investments are traded at ruling prices and may engage in scrip lending and borrowing. Where investment in a Fund involves exposure to currency other than that in which the Fund is denominated, changes in exchange rates may cause the value of the Fund to go up or down. A schedule of fees, charges, and maximum commissions, as well as a detailed description of how performance fees are calculated and applied, is available on request from the Fund Manager and Investment. The Fund Manager may close the fund to new investors in order to manage it efficiently according to its mandate.
