Ashburton SA Income Fund (L)

Minimum Disclosure Document as at 31 October 2025

Λ SHBURTON

Investor profile

This fund is suited to investors who are:

- looking for an alternative to cash or bank deposits over 12 to 36 months
- seeking managed exposure to income generating investments
- · wanting to take advantage of active management within the fixed interest universe

Investment objectives and strategy

The fund is a specialist portfolio focusing on high interest-bearing investments. It aims to provide relative capital stability, optimal income returns from interest earning securities and enhance returns through a combination of diversified fixed income strategies. The fund comprises of a combination of bonds, fixed deposits and other interest earning securities which have a fixed maturity date and either have a predetermined cash flow profile or are linked to benchmark yields. The fund will not invest in equity securities, real estate securities or cumulative preference shares. The fund's duration will be limited to a maximum of two years. Risks include political, economic, interest rate risk, default risk as well as general market risk which could lead to an increase in bond yields and credit risk.

Performance and statistics

Source: Morningstar®, Ashburton Fund Managers

All performance numbers are net of all fees and expenses. The above is purely for illustrative purposes. The above portfolio performance is calculated on a NAV to NAV basis and does not take any initial fees into account. For reinvesting funds, income is reinvested on reinvestment date. Actual investment performance will differ based on the initial fees applicable, the actual investment date, the date of reinvestment of income and dividend withholding tax. Past performance is not necessarily an indication of future performance.

Definitions

Total return accounts for two categories of return: income and capital appreciation. Income includes interest paid by fixed income investments, distributions or Total return: dividends. Capital appreciation represents the change in the market price of an asset

This is the total value of assets in the portfolio less any liabilities, divided by the number of shares outstanding NAV (net asset value):

This is a measure of the total costs associated with managing and operating an investment fund. These costs consist primarily of management fees and additional TER (total expense ratio): expenses such as trustee and custody fees, auditor fees and other operational expenses. The total cost of the fund is divided by the fund's total assets to arrive at a

percentage, which represents the TER.

Management fee : nagement fee is a charge levied by an investment manager for overseeing an investment fund.

A performance fee is a payment made to an investment manager for generating positive returns. This is as opposed to a management fee, which is charged without Performance fee

In the case of financial markets, an index is a theoretical portfolio of assets representing a particular market or a portion of it. Each index has its own calculation Index methodology and is usually expressed in terms of a change from a base value. Thus, the percentage change is more important than the actual numeric value

Total costs incurred by the investor in buying and selling the underlying assets of a financial product and is expressed as a percentage of the daily NAV calculated Transaction costs:

on an annualised basis. These costs include brokerage, VAT, and trading costs.

Annualised cost: Is the cost per year of investing in the assets of a financial product

Annualised return: The weighted average compound growth rate over the performance period measured. Tracking error A measure of the amount of risk that is being taken in excess of the benchmark Total investment charges (TIC): It is the sum of the Total Expense Ratio (TER) and the Transaction Cost (TC) Highest & Lowest Return: The highest and lowest rolling twelve-month performance of the portfolio since inception Sharpe Ratio The ratio of excess return over the risk-free rate divided by the total volatility of the portfolio.

The ratio of excess return over the risk-free rate divided by the downside deviation of the portfolio.

Standard Deviation: The deviation of the return of the portfolio relative to its average. Drawdown The greatest peak to trough loss until a new peak is reached

Information ratio: The information ratio measures the risk-adjusted performance of a portfolio relative to a benchmark.

Disclaimer

Ashburton Management Company (RF) (Proprietary) Limited (Reg No 1996/002547/07) ("Ashburton") is an approved collective investment schemes manager of the Ashburton Collective Investment Scheme ("Ashburton CIS"). Ashburton is regulated by the Financial Sector Conduct Authority (FSCA) and is a full member of the Association for Savings and Investment SA (ASISA). This document and any other information supplied in connection with the Ashburton CIS is not "advice" as defined and/or contemplated in terms of the Financial Advisory and Intermediary Services Act, 37 of 2002 ("the FAIS Act? and investors are encouraged to obtain their own independent advice prior to buying participatory interests in CIS portfolios issued under the Ashburton CIS. Any investment is speculative and involves significant risks and therefore, prior to investing, investors should fully understand the portfolios and any risks associated with them. Collective investment schemes in securities are generally medium to long term investments. In the event a potential investor requires material risks disclosures for the foreign securities included in a portfolio, the manager will upon request provide such potential investor with a document outlining: potential constraints on liquidity & repatriation of funds; Macroeconomics risk; Political risk; Foreign Exchange risk; Tax risk; Settlement risk; and such potential investor with a document outlining: potential constraints on liquidity & repatriation of funds; Macroeconomics risk; Political risk; Foreign Exchange risk; Tax risk; Settlement risk; and Potential limitations on the availability of market information. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. Forward pricing is used and portfolio valuations take place at approximately 15h00 each business day (17h00 at month and quarter end). Instructions to redeem or repurchase must reach Ashburton before 14h00 to ensure same day value. Excessive withdrawals from the portfolio may place the portfolio under liquidity pressures. In such circumstances, a process of ring-fencing of withdrawal instructions and managed pay-outs over time may be followed. CIS portfolio sare traded at ruling prices and can engage in borrowing and scrip lending. Fluctuations or movements in exchange rates may cause the value of underlying investments to go up or down. A CIS portfolio imay borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. Participatory interests are calculated on a net asset value (NAV) basis, which is the total market value of all assets in the portfolio including any income accruals and less any permissible deductions from the CIS portfolio divided by the number if participatory interests in issue. All fees quoted are inclusive of VAT. The Total Expense Ratio (TER) is expressed as an annualised percentage of the charges, levies and fees incurred by the portfolio over this period. A higher TER does not necessarily imply a poor return, nor does a lower TER imply a good return. The current TER cannot be regarded as an indication of future TERs. A full detailed schedule of fees, charges and commissions is available from Ashburton on request and incentives may be paid and if so, would be included in the overall costs. The manager does not provide any guarantee either with respect to the capital or the retu portfolio to new investors in order to manage the portfolio more efficiently in accordance with its mandate. Some of the representatives may be working under supervision. Additional information about this product, including brochures, application forms and annual or half-yearly reports, can be obtained from the Manager, free of charge, and from the website: www.ashburtoninvestments.com. Bond and Income portfolios derives its income from interest bearing instruments and the yield is historic/current calculated as at 31/10/2025. Ashburton Fund Managers (Pty) Ltd is an authorised Financial Services Provider
